

K-Love radio station is very important to me and my family. It provides us with the only 24 hour Christian news and music. K-Love provides the community with 5 full-time pastors that are available in times of crisis and in times of joy. It is important to have this resource in our community for people who may only have K-Love as their connection to God's word. I believe that K-Love serves our community by providing a clean, safe listening environment for families that are sick of the filth that is spewed on most other stations. K-Love is a refreshing alternative for people who want a positive and encouraging message and not a airwaves filled with offensive material. Please keep K-Love on air and available to our families! Thank you.
